PROFILE

Creative and passionate Full-Stack Developer and AI Enthusiast driven by a mission to build smart, useful, and beautiful tech. I love turning ideas into impactful solutions—whether it's empowering autistic students or streamlining hiring with AI. I thrive in collaborative environments and believe in using code as a force for good.

WORK EXPERIENCE

🥇 **Pet-Twin (GiG Hackathon – 1st Place)**
- AI platform that matches pets with ideal adopters based on behavior and lifestyle.
- Tech: React, Node.js, AI algorithms
